JOURNAL OF THE ENTOMOLOGICAL RESEARCH SOCIETY

Published by the Gazi Entomological Research Society

Editor (in Chief)

Abdullah Hasbenli

Managing Editor

Zekiye Suludere

Associate Editor

Selami Candan

Review Editors

Dođan Erhan Ersoy
Damla Amutkan Mutlu
Nurcan Özyurt Koçakođlu

Subscription information

Published by GERS in single volumes three times (March, July, November) per year. The Journal is distributed to members only. Non-members are able to obtain the journal upon giving a donation to GERS.

Papers in *J. Entomol. Res. Soc.* are indexed and abstracted in Science Citation Index Expanded (SCIE), Zoological Record, Biological Abstracts, BIOSIS Previews, Scopus, Essential Science Indicators, ProQuest, Scimago Journal & Country Rank (SJR), IPIndexing Portal, Resurchify, ORES, Academic Accelerator, CiteFactor, scinapse, Acarindex, Publons, TR Dizin.

Publication date: March 21, 2022

AUTHOR GUIDELINES

Journal of the Entomological Research Society (J. Entomol. Res. Soc.) accepts and publishes original research articles in the all fields of entomology. The journal publishes regular research papers and review articles. Brief and timely reports may be submitted as short communications, where articles with less detailed results and evaluations sections can be accepted as short communication. The Editors first evaluate all manuscripts. At this stage, manuscripts that fail to be original, have serious scientific flaws, have poor grammar or English language, or are outside the aims and scope of the Journal will be rejected. Those that meet the minimum criteria are passed onto at least 2 experts for review. Authors should suggest four reviewers with their names, addresses and e-mail addresses who would review their manuscript. Information on the reviewers should also be uploaded as an appendix to the manuscript. Of these four reviewers, at most two should be in the author's native country and the others will be in other countries. Two reviewers are selected from these four suggested reviewers or editors may assign other reviewers. A final decision to accept or reject the manuscript will be sent to the author along with any recommendations made by the reviewers. Reviewers make recommendations to the Editor whether to accept or reject the manuscript for publishing. The Editor reaches a final decision based on the reviewers' recommendations, as well as his/her own evaluation of the manuscript.

The manuscripts should be written in Arial with 12 type size with double spacing in Microsoft Office Word. The paragraphs should not be indented. The Manuscripts in general should not exceed 30 pages.

Heading: The title of the manuscript should be informative, but preferably not exceed twenty words. Just under the heading, please provide the title, full name(s) of author(s) (The name(s) of all authors should be start with capital letter, and surname(s) should be typed in upper case), with full address and e-mails of each author on a separate line. If a genus or species name is included in the manuscript heading, these should be written in full with no abbreviations, including the author name and date; e.g. *Aphodius lividus* (Olivier, 1789)

Abstract: An abstract provided at the beginning of the manuscript should indicate the main aspects of the subject, not exceed 200 words, and should be followed by 5-7 key words.

Text: The standard order of sections for original manuscripts is as follows: Introduction, Material and Methods, Results, Conclusions and Discussion, Acknowledgements, References. Sub-titles should be up to the third level and Italic format should be avoided except for species names. . The scientific names (e.g. genus- and species-group names) are the only words to be italicized. References should be cited in the text by the last name(s) of the author(s) and year of publication. Attribution in main text must be given like that (Surname, 1900a; 1900b; 1991; Surname, et al, 2000, Surname1 & Surname2, 2001). Two Authors: The surname of both authors is stated with either 'and' or an ampersand (&) between. For example: Surname1 & Surname2 (2017) state... Or ...(Surname1 & Surname2, 2017). Three, Four or Five Authors: For the first cite, all names should be listed: Surname1, Surname2, & Surname3 (2017) state... Or ...(Surname1, Surname2, & Surname3, 2017). Further cites can be shorted to the first author's name followed by et al: Surname1 et al (2017) state... Or ...(Surname1 et al, 2017). Six or more authors: Only the first author's surname should be stated followed by et al: (Surname1 et al, 2017). Works should be cited with a, b, c etc following the date. For example: (Surname1, 2017a) or (Surname1, 2017b). If these works are by the same author, the surname is stated once followed by the dates in order chronologically. For instance: Surname (2007, 2013, 2017) Or (Surname, 2007, 2013, 2017). If a page number will be given for a quote, the page number must be given after the date, for example (Surname, 2017, p.104). This rule holds for all of the variations listed. Groups of references should be listed chronologically.

For faunistic research follow this order, Distribution:..., Material examined:..., Host plant:....etc.

Example:

Sphex oxianus Gussakovskij, 1928

Distribution: Central and South West Asia, Afghanistan, Iran, Israel, Turkey (Bohart and Menke, 1976; Menke and Pulawski, 2000; Kazenas, 2001), Turkey: Artvin (De Beaumont, 1967).

Material examined: Ankara, Altındağ, Çubuk Dam Lake, 900 m, 29.06.1998, 1 ♂; Kalecik, 600 m, 24. 07. 2001, 2 ♀♀, Kalecik, 800 m, 25. 07. 2001, 3 ♀♀

Host plant: *Echinophora* sp.

Please use ♀, ♂ symbols. Please write upper genus categories with capital letters.

Illustrations: Illustrations, graphs, their caption or legends should form a separate, and a self-explanatory unit. Abbreviations in the legends should be explained but if there are too many, they should be included into a separate list. The original drawing and photographs should not be more than twice as large as when printed.

Morphological illustrations should include a scale bar. Photographs and electron micrographs should be in high-resolution JPEG file format (300 dpi). Drawings (black and white type) should be in TIFF format and their size should be no more than 10 MB. Graphs should also be in black and white and submitted in excel file format. Tables should include headings and explanations, and should be numbered consecutively. Their approximate position in the text should be indicated in the margin. Legends and titles of the graphs and tables should be in Arial with 12 type size. Please do not embed the figures, graphs and table into the text, and send them as supplementary files. In the text attribution to the figures should be given in parenthesis and must be abbreviate like this; (Fig.1).Figs. 1-10. A. marriotti sp. n. 1. Male (holotype), dorsal. 2. Female (paratype)

References:

Titles of manuscripts published in languages other than the major ones (English, German, French, Spanish, Portuguese, Turkish) should be an English translation (in parentheses) with an explanatory note at end, e.g. (in Russian). The list of references should be given at the end of the article and listed alphabetically, according to the following examples. All periodical names should be unabbreviated and italicized. In references, journal titles must be written in full (not abbreviated).

Nomenclature should be in absolute agreement with the current ICZN rules. The only acceptable type concepts are: holotype, paratype, etc. The following abbreviations should be adopted: gen. n., sp. n., stat. n. and comb. n. Journal of the Entomological Research Society uses the Open Journal Systems (OJS) platform, which will enable the journal to accept submissions online. For submitting a manuscript please go to web page <http://www.entomol.org> and register as author and submit your manuscript online.
